

IRISeal

Secure Digital Seal Solution

Unlock the power of digital trust to ensure data authenticity & integrity.

IRISeal can be stored either on the phone or within a mobile app.

IRISeal offers the option to be printed onto any documents or product labels.

Protecting Valuable Data with IRISeal

In today's digital landscape, trust and security are paramount. The need to protect sensitive data, maintain authenticity, and ensure data integrity has never been more crucial. IRISeal, a cutting-edge secure Visible Digital Seal (VDS) solution, brings an added layer of security and trust to the digital landscape.

At the core of IRISeal's innovation lies its encrypted code technology combined with cryptography and biometrics. The state-of-the-art security provides a higher level of security measures to ensure the authenticity and integrity of the data, protecting against counterfeiting, data tampering and unauthorised access. This powerful feature acts as a Visible Digital Seal, providing an ironclad layer of protection for important documents or products.

Key Features of IRISeal

Digitally Signed QR Code

IRISeal is cryptographically signed, providing unparalleled security against data manipulation or unauthorised access.

Biometric Matching with Mobile App

Unique biometric traits such as face or fingerprint can be stored in IRISeal that enhances the authentication process to reduce the risk of authorised access and fraud.

Online or Offline Verification

IRISeal can be self-contained. There is no need for any network connectivity to validate the information, thus, allowing verification to work anytime and anywhere.

Contactless and Instant Verification

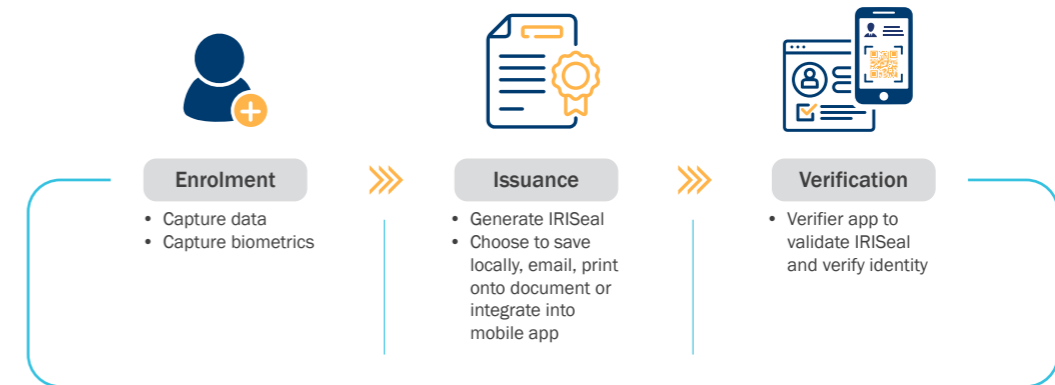

Replace tedious and laborious manual processes with IRISeal as document or product authenticity can be instantly and remotely verified.

Easy Integration

IRISeal can be seamlessly integrated into existing systems and workflows, making adoption a breeze whilst creating a better customer experience

How it works?

IRISeal Key Applications

Unlock the potential of IRISeal that can effectively address the unique challenges and requirements of different industries to protect brand, documents or products

Government

ID cards, passports, visas, border passes, civil records

Education

Transcripts, certificates, academic records

Transportation

Road tax, vehicle permits, driver's license

Property

Land titles, property records

Healthcare

Patient IDs, medical reports, doctor's license

Banking & Finance

Financial documents, loan, hire purchase

Insurance

Insurance records, medical cards, insurance cards

Legal

Contracts, wills, notarial acts

Retail

Products, warranty cards

Stamps

Company stamps, tax stamps

Why Choose IRISeal?

Robust Security

IRISeal uses advanced encryption techniques that offers highest security to ensure the authenticity and integrity of the data, protecting against tampering and unauthorised access.

Protects Data Authenticity and Integrity

With IRISeal, data remains intact and authentic throughout its lifecycle. The digitally signed Visible Digital Seal acts as a secure seal, guaranteeing the integrity of the encoded information.

Versatile, Scalable and Future Proof

IRISeal adapts well to business needs and scales effortlessly to accommodate growing demands as business expands, accommodating increased volumes of document or product without compromising performance or security.

Enhanced Trust and Confidence

By leveraging IRISeal's secure digital sealing capabilities, businesses foster trust and credibility with their customers and partners with the assurance that their documents and products are genuine and untampered.

Cost-Effective Solution

IRISeal solution is designed to optimise operational efficiency, reduce manual processes and associated costs. By streamlining document and product verification with IRISeal, businesses can save valuable time and resources, resulting in long-term cost savings.

Our Secure Solutions

We offer comprehensive, sustainable, highly adaptive, and customisable Trusted Identification software and solutions that are built on secure platforms and architecture. Our proven solutions unify security, inventory, workflow, and lifecycle requirements while managing enrolment, production, issuance of physical, electronic and digital documents such as identity cards, ePassports, driver's licenses, voter cards, travel visas and many more.

Why IRIS ?

We are a globally recognised technology-driven company with dual-certifications as a security printer and security supplier. Our experience of more than 25 years has allowed us to pioneer numerous break-through identity products and solutions for greater national and trans-border security - inventing the world's first ePassport and the world's first multi-application National ID card. Our comprehensive range of trusted identification solutions span the globe. From the manufacture of smartcards and secure travel documents to the devices and software architecture required for authentication, we continue to integrate disparate technologies that are Innovative, Relevant, Intelligent and Secure to bring to life solutions that are sustainable.
