IRIS Smart Kiosk Solution

Our cutting-edge kiosk technology offers end-to-end solutions that streamline enrolment, verification, and transaction processes. When integrated with advanced facial or fingerprint recognition technologies, IRIS Smart Kiosks provide a seamless and smooth user flow that reduces waiting time and eliminates the need for human intervention. Our kiosks are fully customisable, ergonomically designed and come equipped with a broad set of foundational software capabilities, giving organisations the flexibility to integrate and unleash the full potential of our kiosks.

IRIS Smart kiosks are perfect for a variety of industries, from retail and hospitality to transportation and healthcare, and everything in between. Our innovative kiosk solutions offer a dynamic and interactive experience for both businesses and their customers as well as governments and their citizens.

Our Kiosks touchscreens are shatter proof with options for anti-microbial coating. We also offer a ready-to-deploy Kiosk Management System (KMS) to remotely and effectively manage and control kiosks across multiple locations. With the goal of optimising the self-service usage experience, our smart kiosks offer automatic height adjustment of the face capture module to the user's eye level for easier accessibility.

Explore our range of high-tech kiosks

Border Control Kiosk

Key Applications

eTicketing | Immigration
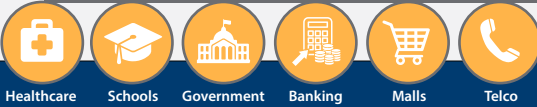

Processing travelers in the most challenging security environments is one of the many challenges of Border Control. IRIS Border Control Kiosks are revolutionising traveller identification, passport reading, expediting check-in, and improving security with multi-modal biometrics technology. These versatile kiosks swiftly and proactively deliver increase in security, faster immigration processing times and improved traveler satisfaction. IRIS Border Control Kiosks can be used in a variety of contexts; from check-in, border control and boarding, VIP lounges, and baggage drop.

- Multi-modal biometrics (face, iris, fingerprint, contactless palm)
- Facial liveliness detection to prevent spoofing
- Printer (option)
- Enhance passenger experience
- Modular design
- Fast and secure
- User-friendly with intuitive design

Visitor Management Kiosk

Key Applications

Healthcare | Residential | Malls | Enterprise | Government

Managing visitor access is historically time-consuming, costly, error-prone, and potentially compromising to security. IRIS Visitor Management Kiosks simplify reception tasks, ensuring smooth processing of visitors upon arrival while assuring that health and safety obligations have been met and remain secure. IRIS Visitor Management Kiosks are highly configurable, secure and user-friendly. With these seamless kiosks, waiting times are reduced during registration and verification processes.

- Fast and secure
- User friendly
- Durable
- Easy set-up and maintenance
- Modular design
- Facial verification with liveliness check
- Fingerprint verification (option)
- Printer (option)

Payment & Transaction Kiosk

Key Applications

Healthcare | Schools | Government | Banking | Malls | Telco

IRIS Payment & Transaction Kiosks are self-service kiosks equipped with payment systems. These kiosks are able to securely transact purchases and safely receive payments in exchange for services or goods rendered with the aid of devices such as barcode scanners, receipt printers, debit card readers, and cash deposits. IRIS Payment & Transaction Kiosks provide excellent convenience to various industry verticals including utility companies, telco companies, banking, healthcare, malls, fast food restaurant, entertainment, as well as schools and universities.

- Highly secure and safe
- Diverse payment options (eWallet, Cash, Credit Card, Debit Card)
- Receipt printer
- Card or micro sims dispenser
- Enhance customer experience
- Customisable

Retail Kiosk

Key Applications

Self-registration | Malls | Infortainment

Innovation is the key to maximising foot traffic in retail locations and this is where the IRIS Retail Kiosks excel. Placing kiosks in strategic places with catchy messages and offers can attract more customers and build greater brand identity. IRIS Retail Kiosks are designed to offer more services to more customers at a lower cost while saving valuable sales floor space. When customers' experiences are enhanced, they buy more and become more loyal, and these lead to increased revenue.

- Enhance customer experience
- Customisable
- Durable
- Easy set-up and maintenance
- User-friendly with intuitive design
- Fast and secure

Transportation & Ticketing Kiosk

Key Applications

Government | Parking | Public Transport | Entertainment

IRIS Transportation & Ticketing Kiosks offer 24/7 convenience, efficiency, and easy access to transportation tickets and related services. These kiosks are ideal performers for high use public access including travel and transportation services, ticketing kiosks or city and state agencies such as vehicle registration. Self-service ticketing kiosks can be found on train platforms and in parking areas, offering easy and convenient ticket purchase. Rental car companies can provide superior service through video conferencing kiosks, reducing the need for staffing at low-traffic locations.

- Highly secure and safe
- Diverse payment options (eWallet, cash, credit card, debit card)
- Ticket printer
- Card dispenser
- Customisable
- Durable
