IRIS eVisa Solution

Experience the future of secure and efficient travel with our cutting-edge eVisa Solution. Designed to streamline the visa processes, our solution combines the best of traditional and electronic systems, offering unparalleled convenience, security, and speed. Embrace a smarter, safer way to manage visas today.

eVisa Application

eVisa Issuance

eVisa Management

eVisa Verification

IRIS eVisa Solution

IRIS comprehensive eVisa solution streamlines and secures the entire visa lifecycle. By automating processes, integrating biometric data, and adhering to global security standards, we empower governments to efficiently issue visas while safeguarding national borders. Our platform offers a flexible and scalable solution to manage both traditional and electronic visas, providing real-time insights and robust security features.

How it works?

Online Application
- Fill in the form, upload relevant documents and pay visa fees.
- Set biometric data collection appointment.

Issuance
- Issuance of eVisa slip with Visible Digital Seal (VDS) in either physical format (Visa Sticker) or electronic copy.

eVisa Management
- Manages the entire eVisa lifecycle, ensuring accuracy and up-to-date information.

Verification
- Accurate and swift eVisa and identity validation and authentication.

Why Choose IRIS eVisa Solution?

 End-to-end eVisa Issuance System

 Accurate and Reliable eVisa Records

 Paperless and Digitalised

 Multimodal Biometrics Identification and Verification

 Enhanced Security Controls

 Versatile, Scalable and Future-Proof

 Instant Verification and Authentication

 Fully ICAO 9303 Compliant

Evolving Visa Systems: A Digital Revolution

The visa landscape is undergoing a rapid transformation, shifting from traditional paper-based systems to electronic visas (eVisas), which also known as digital visas. This shift is driven by advancements in technology and the increasing global mobility. eVisas offer greater efficiency, security, and convenience for both travellers and governments.

IRIS eVisa Solution is a leading-edge platform that seamlessly blends traditional and electronic visa processes. Built on decades of expertise, IRIS eVisa Solution offers a comprehensive solution for border control agencies and immigration authorities. By automating processes, integrating biometric data, and enhancing security, IRIS eVisa Solution empowers authorities to manage visas efficiently while ensuring a faster, safer, and more secure travel experience for visitors. This advanced system ultimately supports local economies through improved visitor management and tourism facilitation.

Key Features

| Physical and Electronic Visa (eVisa) with Biometrics | Scalable and Flexible Visa Management System | Support Online Visa Application | Enables Real-time, Cross-border Data Exchange | Fast and Accurate Alert & Notification Management | Integration with Automated Biometric Identification System (ABIS) |

Project Reference

Republic of Guinea

Guinea's Ministry of Security and Civil Protection recognised the need to modernise its visa system to address challenges such as manual processing times and security risks. By adopting the IRIS eVisa Solution, visa processes were automated, operational efficiency was streamlined, and security was strengthened. This implementation revolutionised Guinea's visa application process, offering a convenient and secure online platform for travellers. The user-friendly interface and seamless application experience boosted economic growth by attracting more visitors, significantly enhancing Guinea's reputation as a welcoming and accessible destination, fostering positive international engagement.

Our Secure Solutions

We offer comprehensive, sustainable, highly adaptive, and customisable Trusted Identification software and solutions that are built on secure platforms and architecture. Our proven solutions unify security, inventory, workflow, and lifecycle requirements while managing enrolment, production, issuance of physical, electronic and digital documents such as identity cards, ePassports, driver's licenses, voter cards, travel visas and many more.
